

How to optimise machining performance

Tuesday
28th June 2016
at the AMRC KTC

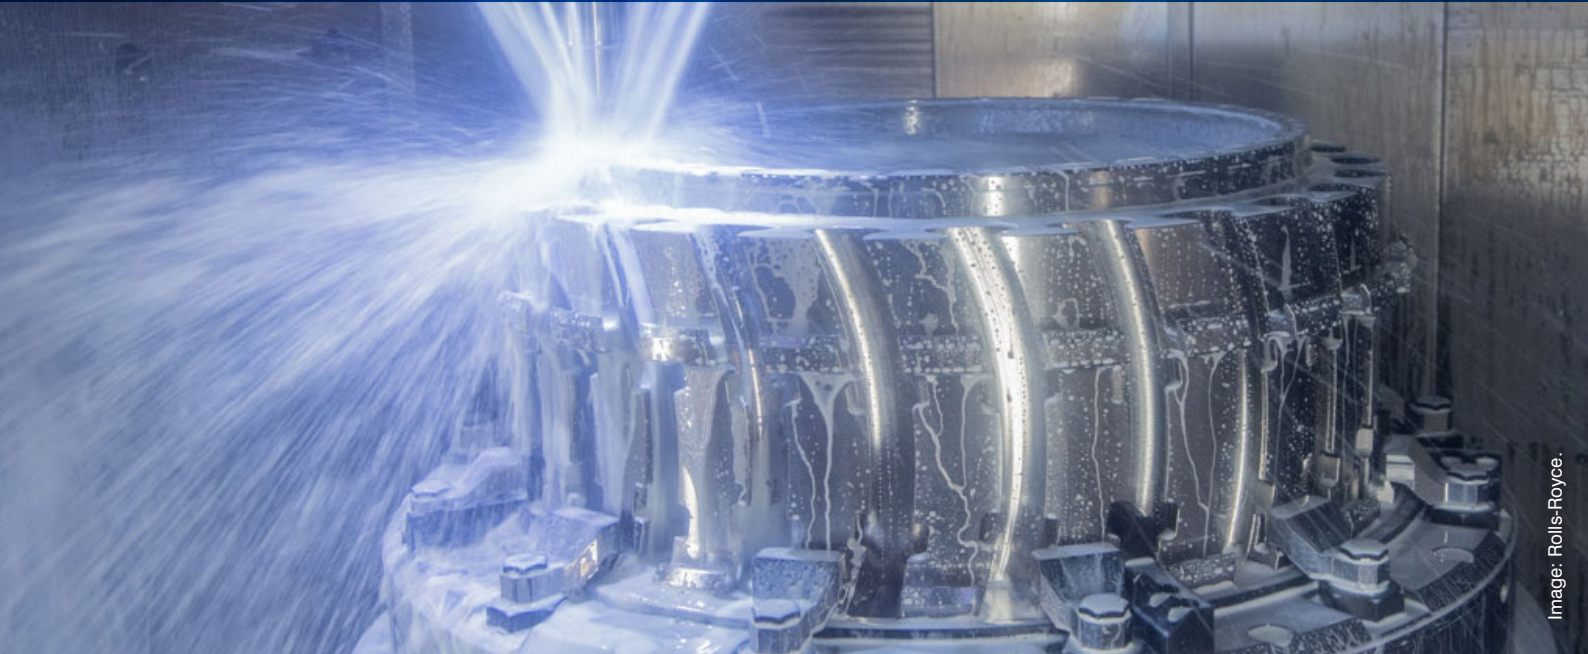

Image: Rolls-Royce.

Learn how the latest developments in machining technology are fundamentally changing the way that top aerospace machining companies are operating.

Hear from industry practitioners about the real benefits achieved by optimising machining processes and find out how to start implementing it in your own business.

Whether you're in an aerospace supply chain or not, you'll gain valuable insight into how improvements in machining operations can critically impact on your company's performance.

Network with and share in the real experiences of presenters from:

- Boeing
- Rolls-Royce
- Sandvik
- Produmax
- AMRC Machining Group
