Sustainability: manufacturing in an uncertain future.

12th Feb 2020 / 9.30am – 1pm at the AMRC Knowledge Transfer Centre, including lunch

UK manufacturers are facing unprecedented pressure to change to more sustainable methods of manufacturing.

As UK government pursues net zero carbon by 2050 and responsibility for waste begins to move from consumer to supplier, legislation is rapidly changing to meet the expectations of an increasingly aware global population.

There is an emerging view that this is the fifth industrial revolution. A revolution led by a drive for greater social responsibility and government legislation.

Join us to hear a range of views including HM Government, Factorylux, Textile Centre of Excellence and High Value Manufacturing Catapult.

Booking details

Where: The AMRC Knowledge Transfer Centre (KTC),
Advanced Manufacturing Research Centre,
Brunel Way, Catcliffe, S60 5WG.

When: 9.30am to 1pm on Wednesday 12th February 2020.
Including lunch.
